

February Report for The Edge

Librarian Carlson and Digital Media Specialist (DMS) Olney had another busy month. On February 3rd they both attended a training session on 3D printing with a representative from think. They both had a meeting with members of the library's IT department to talk about technology in the Edge and see what else is needed. Librarian Carlson met with the Library's Friends group to talk about work in the Edge and upcoming plans. He was also interviewed on a Public Access TV show by Reggie White from White Plains CAP. DMS Olney attended a virtual conference with a representative from MATLAB. They both ran a number of programs for teens as well as adult computer classes. Librarian Carlson held a Teen Advisory Group meeting on 3/3, and the Teen Book Review Club on 3/18. Part-time librarian, Carroll, taught a macramé jewelry workshop on 3/5. Librarian Carlson taught a crochet workshop on 3/19 and hosted the Intro to Babysitting workshop on 3/22. DMS Olney taught "Flying Games: History and Future" program, "Drop in Computer Help" program, "Mac vs. PC vs. Linux" program, "Minecraft Monday" program, "Dissection of a Computer" program, "Music Making" program, "Garry's Mod" program, "Space Rocket Design" program, "Design an App" program, and we both taught a "3D Printing" program.

We gave tours of edge to librarians from Mahwah Library in New Jersey, and Director of the Harrison Library. DMS Olney presented to Connecticut librarians about teen programming here.
