With more staff hosting their own Zoom sessions, there were a couple of training sessions held to get everyone up to speed. They are always very customized to the staff within the session and it is a great way to test out the Zoom platform before doing it with a live audience.

Following the 11/2 session, the recording was [put on YouTube](#) for staff to reference.

AcornTV

As a result of a patron inquiry, a series of videos for accessing AcornTV on a TV were recorded and [put on our YouTube channel](#) for the public.
