AP Language and Composition Essential Readings
Summer Assignment 2022-2023

This assignment will prepare you for the essentials of AP Language. You will develop foundational skills so you can be successful in this class. You will also read famous, fascinating, incredible, seminal texts and essays by wonderful authors that will pique your curiosity about society, humanity, technology, and identity.

You will have a chance to show what you have learned when you take an assessment on all the texts (assigned below), as well as on the vocabulary, in the first week of September. Are you ready for an incredible journey into rhetoric? Let’s go!

1. Learn your Tone Words (See attached list, pages 2-6).
   We will use these tone words again...and again...and again. Learn them. Know them. These are awesome adjectives you should start to use during your conversations this summer! We recommend making flash cards or using Quizlet to learn them.

2. Read the following Essays
   Have you ever wondered what it even means to learn? How would you feel if you were thrown in jail, just for standing up for your rights? What if the way you see yourself is different from the way others see you? How does technology impact our society and relationships?

   Even if you have never asked yourself these questions, check out these incredible essays. You will not be disappointed. All these essays can be found online, for free. Annotate them using your best annotation skills. Consider summarizing and paraphrasing, making connections, and asking questions. You can print the essays and annotate on the page or take organized notes on a separate piece of paper. All of these are acceptable ways to demonstrate that you are interacting with the text as you read.

   • Francis Bacon, “Of Studies” (1625)
   • Henry David Thoreau, “On the Duty of Civil Disobedience” (1849)
   • Frederick Douglass, “What to a Slave is the Fourth of July?” (5 July 1852)
   • Martin Luther King, Jr. “Letter from Birmingham Jail” (1963)
   • Amy Tan, “Mother Tongue” (1990)

3. Critically think (see attached questions, page 6). For each essay, answer the page 6 questions on a separate document. These questions should become second nature to you – like the tone words, they will
appear again...and again...and again throughout the course. Constant practice will help you form a solid foundation for the course.

We look forward to meeting you in September!

Sincerely,

Your AP Language Teachers
Ms. DeMella, Ms. Fahey, and Ms. Klemstine

**Critical Thinking Questions**

**Directions:** For each of the essays, answer the following questions in a separate document. Identify the title and author for each set of question.

1. Identify the **speaker**. Identify or infer the speaker’s age, gender, class, and education. What can you tell or what do you know about the speaker that helps you understand the point of view expressed?

2. Describe the **purpose**. (What is the purpose behind the text? Why did the author write it? What is his/her/their goal? To find the purpose, ask, “What did the author want his/her/their audience to think or do as a result of reading this text?”) What is the message? How does the speaker convey this message?)

3. Describe the **audience**. (Who are the readers to whom this piece is directed? It may be one person or a specific group. Does the speaker specify an audience? What assumptions exist in the text about the intended audience?)

4. Describe the **context**. (What was going on in the world when the text was produced? What were the biggest issues on the speaker’s mind? How would this same text be received differently by a different audience or in a different time?)

5. Describe the **exigence**. (Why NOW for the speaker? What was the spark or catalyst that moved the speaker to act? Note that an event usually serves as exigence.)

6. Describe the writing **choices** the speaker makes. (What literary devices do you notice? What do you notice about the sentence structure? What else is interesting or unique about the writing style?)

7. Describe the **subject**. (What topic, content, and ideas are included in the text? State the subject in a few words or a short phrase. Is there more than one subject? How does the author present the subject? Does s/he/they introduce it immediately or do you, the reader, have to make an inference?)

8. Describe the **tone**. (What is the attitude of the author? Is the author emotional, objective, neutral, or biased about this topic? What types of details “tell” the author’s feelings about the topic? What types of diction (choice of words), syntax (sentence structure), and imagery (metaphors, similes, and other types of figurative language) help reflect the tone? How would you read the passage aloud if you were the author?)
